The work gets done. The yes stays yours.

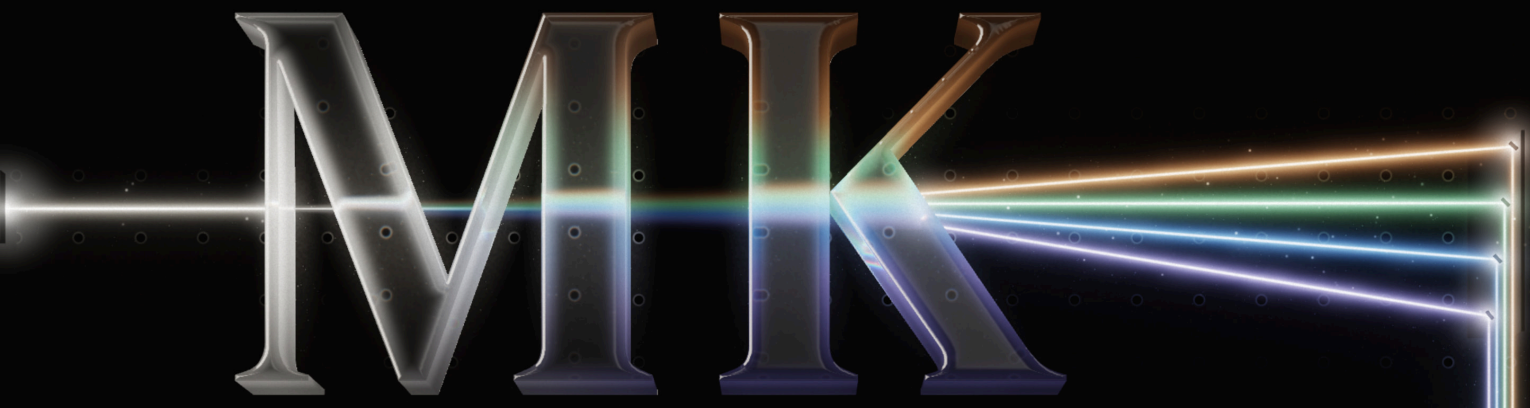

MK Cloud is one account for four AI products. Each one takes a job that eats your day: finding buyers, landing the right job, hiring across borders, or turning a recording into another voice. It does the searching, the matching and the drafting. Then it stops and shows you what it found and what it wrote. You read, you fix, you approve. Only then does anything leave. The whole family is built on that rule, and this catalogue shows how each product keeps it.

THE RULE

Nothing is sent without you.

The family at a glance

Each product does one job well. All four share one account.

01 MK Business OS

445 NM • LIVE

Your company's brain. It finds the buyers, drafts the work, and waits for your yes.

Tell it what you sell. It plans, hunts and drafts, and every buyer it brings comes with proof.

FOR	For companies that sell to other companies.

WHAT IT DOES

01	Finds buyers, with proof: each one comes with a quote, a source link and the date it was checked.
02	Drafts the outreach: email or WhatsApp, written per buyer, waiting for your review.
03	Quotes and deals in one place: build the quote from the buyer's need and follow the deal.
04	Tenders on a checklist: closing date, documents and what is still missing.

• YOU STAY IN CONTROL

Nothing is sent without you. Email goes out only after you approve it. WhatsApp opens the exact message and you press Send.

02 Job Orbit

470 NM • LIVE

Your job hunt, judged against your facts.

Orbit finds jobs, checks them against what you confirm, and waits for your OK.

FOR	For job seekers in Egypt and Kuwait.

WHAT IT DOES

01 Job picks matched to your confirmed CV.

02 Only what you confirm is used. Start from a CV or a few lines.

03 A CV and a letter prepared for each job.

04 You review every application before anything leaves.

• YOU STAY IN CONTROL

Nothing is sent without your yes.

03 MK Voice

530 NM ○ WAITLIST

Record your voice. Hear it in another.

MK Voice turns your recording into the voice you pick, made on a real voice PC. It works from your phone.

FOR	Record on your phone, hear it in another voice.

WHAT IT DOES

01 Record a clip in your browser, up to 60 seconds.

02 Pick a voice and a pitch: lower, same or higher.

03 Follow each step: waiting, picked up, converting, done.

04 Play and download from your clips. Results are kept for 7 days.

• YOU STAY IN CONTROL

Nothing runs until you tap Convert. Every clip is marked as AI voice.

04 Talent Atlas

605 NM • LIVE

Recruit across borders with evidence you can trust.

Candidates, documents, screening and your team in one workspace, whether you hire for your own company or for clients.

FOR	For employers and recruiting teams.

WHAT IT DOES

01 Every candidate and their documents in one place.

02 Every claim linked to its document.

03 One calm screen for what needs you today: people to review, drafts to approve, new replies.

04 Owner, admins, recruiters and reviewers, each with their own view.

• YOU STAY IN CONTROL

Nothing is sent without you. AI only suggests and drafts. A person on your team approves every message and makes every hiring decision.

THE RULE

Nothing is sent without you.

The products find, match, draft and prepare. Then they stop. An email, a message or an application leaves only after you approve it.

01 **Approval first**
In MK Business OS, Job Orbit and Talent Atlas nothing goes out until a person approves it.

02 **No passwords**
Sign in with Google or an email link.

03 **AI is labelled**
Every MK Voice clip is marked as AI voice. Job Orbit tags the parts AI wrote.

04 **No ads, no trackers**
We do not sell personal data or show ads. The MK Cloud site sets no cookies.

05 **Where your data lives**
App data lives in Stockholm (AWS). Sign-in runs in Ireland. MK Voice converts clips on its own voice PCs in Kuwait. AI providers may process text in the US and do not train on it.

06 **Your data, your call**
Delete your account yourself in Job Orbit and MK Business OS, or by email for the others. Within 7 days of a payment you can ask for a full refund if its days are unused.

Getting started

1 Open the product you need at its own address.

2 Sign in with Google or an email link. One MK account covers the family.

3 Try it. Job Orbit and MK Business OS start with free days and no card. Talent Atlas opens a workspace for your company. MK Voice puts you on the waitlist.

4 Pay only when you decide to. You see the price before you pay, and nothing renews by itself in Job Orbit.

ONE ACCOUNT

One account opens all of them.

Sign in with Google or an email link. No passwords to remember. The same MK account works across the family, in English and Arabic.
